| BAD           |

| 5. irritating |
| 6.            |

| 8.            |
| 9.            |
| 10.           |

2. "Wikipedia" is a very fine website. Here you can look for any resources you want. Also there is a perfect presentation, that you could download in your device. If you need it, you can find it. Website "Wikipedia" is really big and presentable thing to search in for information. But it's not always useful, because this website can show incorrect information. Also it doesn't have special features. And it's shocking. I don't really like the icon of "Wikipedia" and I think it could be more presentable and cool. If it was me, who made this website, I would make more "decorations" and add some sound that people could get more information.
